

Lincoln Nursery School

at deCordova Sculpture Park and Museum

←← **OPEN HOUSE**

MISSION STATEMENT

Lincoln Nursery School is a cooperative partnership among our citizens—children, teachers, and parents. We value open communication and mutual respect. Learning through play and inquiry, listening and dialogue, we generate a multiplicity of relationships. These connections broaden our sense of place and open the world from “me” to “we.”

.....

Our location at deCordova Sculpture Park and Museum affords unique possibilities for exploration. The children delight in being outside, moving and discovering. Opportunities to notice, wonder, tell stories and experience design elements abound in this amazing context. Children, contemporary artists and nature are active agents in meaning-making and help us see the world differently—together we are a community of learners open to possibilities. In the studios and outside, children engage with materials and ideas to make meaning of their world.
